📍 London, UK

Computer Science student at Queen Mary University of London with practical experience in software engineering and web development. Seeking opportunities as a software engineer or web developer. Possesses strong problem-solving skills, attention to detail, and a commitment to staying updated with industry advancements. Ready to contribute to dynamic projects with enthusiasm and adaptability.

EXPERIENCE

Algorithms and Data Structures Group Assignment

Queen Mary University of London

London, UK

Nov 2024 - Dec 2024

Took the leading role in a university group project on algorithms and data structures, organising the project effectively and using Git to keep track of progress and manage development.

Database Systems Group Assignment

Queen Mary University of London

London, UK

Nov 2024 - Dec 2024

Worked a group database system coursework, achieving full marks. Gained experience in planning, modelling, documentation, and implementation of a database, as well as performing complex queries on the data.

Web Development Job Simulation

Moreton Bay Regional Council

Forage (virtual)

April 2024

Completed a job simulation involving website planning and creation, designing the sitemap and user flow with diagram creation tools and developing the landing page using HTML and CSS.

QHack Entrepreneur Bootcamp

Queen Mary University of London

London, UK

March 2024

Participated in an intensive three-day program, obtaining ideation, validation, and pitching skills. Developed vital teamwork, strategic planning, and communication abilities essential for navigating the software engineering field. Our team won the Best Pitch Award.

EDUCATION

Full-Stack Engineer Course

Codecademy

Virtual

2024 (in progress)

BSc Computer Science

Queen Mary University of London

London, UK

2023 - 2026

A-Levels

St Gregory's Catholic Science College

London, UK

2021 - 2023

Grades: Mathematics (A*), Further Mathematics (A*), Computer Science (A)

PROJECTS

View my portfolio website at www.bencodev.com to explore my latest projects and coding endeavors.

SKILLS

Programming Languages

Python, Java, HTML, CSS, JavaScript, PHP, SQL

Technical Skills

Algorithms & Data Structures, Database Systems, Mathematical Modelling

Version Control, Modelling & Tools

Git, GitHub, UML, Canva, Figma

Soft Skills

Problem-solving, adaptability, leadership, collaboration, communication, attention to detail
