📍 London, UK

Computer Science student at Queen Mary University of London with practical experience in software engineering and web development. Seeking opportunities as a software engineer or web developer. Possesses strong problem-solving skills, attention to detail, and a commitment to staying updated with industry advancements. Ready to contribute to dynamic projects with enthusiasm and adaptability.

EXPERIENCE

Algorithms and Data Structures Group Assignment
Queen Mary University of London

London, UK   Nov 2024 - Dec 2024

Took the leading role in a university group project on algorithms and data structures, organising the project effectively and using Git to keep track of progress and manage development.

Database Systems Group Assignment
Queen Mary University of London

London, UK   Nov 2024 - Dec 2024

Worked a group database system coursework, achieving full marks. Gained experience in planning, modelling, documentation, and implementation of a database, as well as performing complex queries on the data.

Web Development Job Simulation
Moreton Bay Regional Council

Forage (virtual)   April 2024

Completed a job simulation involving website planning and creation, designing the sitemap and user flow with diagram creation tools and developing the landing page using HTML and CSS.

QHack Entrepreneur Bootcamp
Queen Mary University of London

London, UK   March 2024

Participated in an intensive three-day program, obtaining ideation, validation, and pitching skills. Developed vital teamwork, strategic planning, and communication abilities essential for navigating the software engineering field. Our team won the Best Pitch Award.

EDUCATION

Full-Stack Engineer Course
Codecademy

Virtual   2024 (in progress)

BSc Computer Science
Queen Mary University of London

London, UK   2023 - 2026

A-Levels
St Gregory's Catholic Science College

London, UK   2021 - 2023

Grades: Mathematics (A*), Further Mathematics (A*), Computer Science (A)

PROJECTS

View my portfolio website at bkuliesis.tech to explore my latest projects and coding endeavors.

SKILLS

Programming Languages
Python, Java, HTML, CSS, JavaScript, PHP, SQL

Technical Skills
Algorithms & Data Structures, Database Systems, Mathematical Modelling

Version Control, Modelling & Tools
Git, GitHub, UML, MS Office, Adobe Photoshop, Adobe XD, Figma, Canva

Soft Skills
Problem-solving, leadership, collaboration, communication, technical writing, attention to detail
